MAIL STEAMERS OFF YESTERDAY

Alameda for the Coast and Doric for the Orient.

With two ocean liners to sail during the course of one afternoon and a number of well known people to leave on each of them, matters were rather lively on the water front yesterday. The O. & O. S. S. Doric sailed at 4 p. m. for the Orient and the O. S. S. Alameda an hour later for the Coast. The Hawaiian band played for an hour at the Pacific Mail wharf for the Doric and for another hour on the Oceanic wharf for the benefit of the passengers departing on the Alameda.

The Doric had only been alongside the dock since 9 o'clock in the morning. She brought two days' later mail from San Francisco. She was late in arrival and did not reach here on Tuesday night as was expected, her officers finding that they would be unable to get in before midnight, slowed down the vessel and she did not arrive off the harbor until about 5 o'clock. The doctors put off to her about 6 o'clock, but it was 9 o'clock before the vessel got alongside the wharf, as the doctors had to investigate an alleged case of smallpox in the steerage. This was looked into and found to be chickenpox. The Doric had a large list of passengers. Thomas D. McKay, passenger agent for several of the Orient Steamship lines, is returning to Yokohama. R. W. Irwin, ex-Hawaiian Minister to Japan, is making a trip to that country. Miss Elizabeth Waite, from the East, is on her way to Manila to marry Lieutenant George A. Duncan of the Fifteenth Infantry. Another passenger going over to be wed is Miss Louisa Becker of San Francisco, whose future husband is a Yokohama business man. Mr. T. W. Stevens, the well known counselor of the Japanese legation, is on one of his usual trips. Of the passengers going from Honolulu the best known were Messrs. C. Shiozawa, proprietor of the Hawaii Shippo and T. Ishikawa of the Yamoto Shimbun, who go to Japan in connection with the Japanese fire claims. Dozens of their fellow countrymen gave them an enthusiastic send off.

Mr. F. C. Hubbell, the well known Iowa capitalist, and Mrs. Hubbell, who stopped over from the China, were also passengers for the Orient. Mr. Hubbell had some very nice things to say of Hawaii. "Your whole island teems with beauty and commercial possibilities," he said, "and even when leaving the place your native land tells us in music not to forget the islands. I think your band and the custom of friends decorating visitors with flowers one of the prettiest things I have ever seen."

The Doric carries 2500 tons of general merchandise and silver bullion valued at \$300,000. She took quite a large number of Japanese and Chinese steerage passengers from this port.

The Alameda carried a big list of passengers and her sailing hour presented a pretty scene. On board everyone was decked with flowers while on the dock there were hundreds and the band had the usual assortment of good things to offer. Just as the vessel was leaving the wharf, after all the lines had been taken away, a man came running breathlessly up the wharf. He had a bundle of letters and the accommodating quartermaster on the Alameda threw out a line to which the letters were attached and pulled up. The Alameda got away promptly at 5 o'clock and carried a fair amount of cargo.

Bark Albert Sails Today.

The bark Albert sails for San Francisco with sugar at 10 a. m. today. She will have Mr. and Mrs. Graham and family and Dr. A. N. Chapman as passengers.

Shipping Notes.

The schooner Rober sailed on July 15 from Port Townsend for Honolulu.

The oil steamer Mariposa sailed from San Francisco for Tahiti on July 15.

The schooner Mary E. Foster arrived at Port Townsend on July 14 from Honolulu.

The bark Andrew Welch left San Francisco on July 15 for Honolulu with a cargo of general merchandise.

The Oceanic steamship Zealandia has again been sent up from San Francisco to Martinez to lay up for an indefinite period.

The Mikahala reports the following sugar ready at Kaula ports: K. S. M., 1200; M. A. K., 1450; G. & R., 300, and M. B., 1200.

Captain Green of the Nippon Maru was stricken with sunstroke shortly after leaving Honolulu on his last voyage to the Coast. He has left Frisco for the mountains hoping to recover his usual good health.

Not a minute should be lost after a child shows symptoms of cholera infantum. The first unusual looseness of the bowels should be sufficient warning. If immediate and proper treatment is given, serious consequences will be averted. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the sole reliance of thousands of mothers and by its aid they have often saved their children's lives. Every household should have a bottle at hand. Get it today. It may save a life. Bennett, Smith & Co., Ltd., wholesale agents, sell it.

COAL A GLUT ON THE MARKET

Poor Business for Vessels Now From Newcastle to Honolulu.

Although some twenty vessels are now either on the way from or are still loading coal at Newcastle for Honolulu the trade outlook in this direction is very discouraging and rates offered now in Newcastle for carriage of coal to this port are so low that it pays a vessel more to go from Australian ports direct, in ballast, to the Coast, than it does to come from Australia to Honolulu with coal and then go on in ballast to the Coast.

One well known man in the coal business here yesterday said: "There is absolutely no market for Australian coal at the present time and that we bring here sells at a ridiculously low figure. In fact, it costs more to mine the coal, load it on ships at Newcastle, pay stevedoring here, and the ship's price for carrying it than the stuff will fetch in Honolulu. Someone is losing a barrel of money in Honolulu in this trade just at present."

"As low a price as nine shillings and sixpence is being offered per ton for the carriage of coal from Newcastle to this port and even if ships will carry it at this rate there is nothing left after paying other charges."

The steamer Tampoco of the Globe Navigation Company brought 600 tons of coal from Seattle and it has been found impossible to sell it in one lump, so that efforts were being made yesterday to sell it in small lots of from twenty to fifty tons.

ADD UP THE GAINS.

The virtue of one dose is so small you can't see any change. But add together all the little virtues from all the little doses and the effect is very marked.

In consumption, as in other cases, the results secured from continued treatment with Scott's Emulsion come from the accumulation of many small gains. A little gain in strength each day—a little gain in weight each day—if continued for weeks, amounts to something.

The fact that Scott's Emulsion can be taken for so long a time without the slightest inconvenience is greatly in its favor as a medicine for consumptives. Such a medicine gives itself time to do good.

It makes new flesh and strengthens the lungs.
